Inspection Type: PARTIAL

Inspection Date: Thursday, February 17, 2011 Page 3 of 3

2. Signs and Markers

The mine identification sign is located at the entrance into the permit area. The sign contained the required information.

4.a Hydrologic Balance: Diversions

Tumble weeds were found in several diversions against the inlets and outlets of culverts. The weeds need to be removed. One culvert inlet was observed to be one third to one half full of sediment. The referenced inlet in at the road entrance to the Star Point Fuel Pile Storage entrance.
